

## DESCON CONTINUES TO PROMOTE OPEN COMMUNICATION – DEL CEO COMMUNICATION SESSION QTR III 2022

Descon Engineering Limited (DEL) conducted its third CEO Communication Session in May 2022, virtually connecting all sites and geographies, to share the business update for Qtr III of FY 2022-2023.

These sessions are aimed at strengthening the company's foundation of open communication and trust, with the theme for the current session being "Continuous Improvement". Taimur Saeed, CEO, took the audience through business performance for the first three quarters of the year 2022-2023. The overall performance has been very encouraging, where the company has executed more than what was planned. Despite the challenging year, with the lingering pandemic, unreliable supply chain and fluctuating currency, almost all company divisions have delivered more than the committed numbers, while maintaining a healthy backlog for the future.

## DESCON ENGINEERING TO WORK ON PAKISTAN'S LARGEST PUMPING STATION PROJECT

Descon Engineering Limited's Infrastructure Division has been awarded contract for the Greater Karachi Bulk Water Supply Scheme K-IV "Engineering, Procurement & Construction (EPC) Turnkey Contract of Pumping Station 2 x 130 MGD (Civil, Electrical & Mechanical Works)" by WAPDA.

The SOW for this project of national importance includes EPC of 260 MGD Pumping Station for Greater Karachi

Bulk Water Supply which will enable 25% of the population in Karachi to access safe and clean drinkable water.

With the award of this project, the IP Division continues to strengthen its portfolio in Water Treatment Sector.

## QATARGAS CONTINUES TO SHOW CONFIDENCE IN DESCON'S CAPABILITIES - AWARDS EPC RETROFIT PROJECT

Descon Engineering's Industrial Services Division (Qatar) has been awarded "Emergency Project-EPC for RL2 U30/U40 OFFGAS COMPRESSOR LOOP Upgrade" by Qatargas. The total duration of the project is 22 months. The scope of work includes Engineering, Procurement and Construction job for material upgradation, including Tube bundles, downstream piping, demister pads and strainers at Qatargas South, Ras Laffan, state of Qatar. This is the biggest ever EPC retrofit project awarded to ISD Qatar in terms of value.

Descon takes pride in its well-established presence in the market that has enabled it to achieve this milestone.

## DESCON ENGINEERING BAGS YET ANOTHER PROJECT FROM QATARGAS - AWARDED MAINTENANCE RETROFIT PROJECT

Descon Engineering's Industrial Services Division (Qatar) has been awarded "Replacement of 6 Core BAHX (Brazed Aluminum Heat Exchanger)" by Qatargas. The execution will be carried out during the 65 days of the shutdown period. The scope of work for replacement of existing Heat Exchanger includes heavy lifting, cut and weld of existing piping, demolition work and providing temporary support at Qatargas South, Ras Laffan, state of Qatar.

Qatargas is a repeat and much valued client for Descon Engineering. The trust shown by the client is a testament of their acknowledgement of Descon's strong and reliable capability to deliver projects timely and safely, while remaining committed to operational excellence.

## BREAKTHROUGH INTO THE TEXTILE INDUSTRY SEGMENT: DESCON KICKS-OFF WORK AT INTERLOOP'S APPAREL PROJECT SITE

A groundbreaking ceremony at the new Interloop's Apparel project site in April 2022 marked the start of the construction work of complete civil works of the two main plant buildings. With over 1.2 million square foot covered area, this greenfield project is the largest civil construction job ever to be executed by Descon till date in frame structure works in Pakistan. While we remember the greatest initiations of DEL, LEED (Leadership in Energy and Environmental Design) Platinum BD+C (Building Design and Construction) certified construction work experience will be an excellent first step towards changing the culture of work typically done in this industry, with the best practices that Descon has learnt and are part of its core values.

Showing confidence in Descon's capabilities and work progress on the project, Interloop has awarded additional civil scope of Effluent Treatment Plant. The overall project will span over 12 months, with an expected 5 million man-hours and a peak manpower of 2600.

## MARKING THE BEGINNING OF A NEW ERA FOR AKZONOBEL'S BUSINESS PROSPECTS IN PAKISTAN

A team of dignitaries from AkzoNobel including Mr. Mohammad Ikhbal, Hub Manufacturing Manager for Indonesia, Malaysia and Pakistan, Mr. Mubbasher Omar, CEO AkzoNobel Pakistan Ltd and Mr. Harris Mahmood, CFO Akzo Nobel Pakistan Ltd visited their new manufacturing plant facility, and were received by Mr. Shakeel Ghani, Head Operations, from Descon's side. During the visit a ground breaking ceremony was held, which was led by Mohammad Ikhbal, marking the beginning of a new era for AkzoNobel's business prospects in Pakistan.

Descon Engineering's Project Manager Mr. Ali Raza Zaidi briefed the AkzoNobel's team regarding the progress of

project, to which they expressed their immense satisfaction and confidence in Descon's capabilities.

Reinforcing Descon's focus on 'Safety', an HSE Awards distribution ceremony also took place where prizes were presented to Descon workers by Hub Manufacturing Manager and CEO AkzoNobel.

## DAC AWARDED ORDER OF F&G DETECTORS BY PARCO

Descon Automation & Control Business Unit has been awarded a sizeable order of MSA Flame & Gas detectors by PARCO. The order is of detectors and its related spares used at PARCO oil refineries. DAC had to undergo tough competition with other brands and the achievement is attributed to strong interaction and follow up with PARCO right from inquiry stage, meeting their technical and commercial requirements. This win will further enhance DAC's relationship with PARCO and develop confidence in consideration of other on-going projects.

## LAHORE MANUFACTURING WORKS PLACES ORDER TO DAC

Descon Automation & Control (DAC) proudly announces the award of an order from Lahore Manufacturing Works (LMW) for complete Automation & Control System Scope (Engineering, Supply, Testing & Commissioning) of 16TPH Waste Heat Recovery Boiler of Gatron Industries, Balochistan.

DAC Team was continuously engaged with LMW, not only to win this order but also to develop their confidence in further exploring similar requirements in different

industries.

Congratulations to both LMW & DAC for their joint efforts & successful collaboration.

## DAC SECURES 3RD ORDER FROM ICEBERG

Descon Automation & Control has secured 3rd consecutive order from Iceberg Industries for a Refrigerant leak detection system of MSA. Iceberg is an HVAC solution partner of LG in Pakistan providing complete HVAC solutions to key clients. This specific order has been booked for Pepsico Lahore after successfully delivering the same to Pepsico, Multan. The scope of work includes supply & commissioning of refrigerant Monitoring system at Pepsico Sundar Plant, Lahore. MSA holds a competitive edge as being the only brand which provides Refrigerant leakage detection system. The Chillgard 5000 Refrigerant Leak Monitor provides the earliest level of detection of costly refrigerant gas leaks in mechanical equipment rooms.

Wishing DAC team the best to execute the order on time and to the client's satisfaction.

## DAC RECEIVES ORDER FROM ENGRO

DAC has received (02) orders of MSA F&G detection system from Engro Fertilizers. These detectors are procured for their plant facility at Dherki. Engro is one of the valuable customers procuring multiple types of MSA F&G Detectors from DAC in the past as well. DAC is also working with other companies of Engro Group including Engro Vopak, Engro Elengy Terminal and Engro Polymer & Chemicals for their requirement of F&G solutions, proving a strong bond and trust of Engro with Descon.

## XENON TECHNOLOGIES PLACES ORDER TO DAC

DAC proudly announces award of order from Xenon Technologies (Pvt) Ltd., for MSA Flame & Gas Detectors. Xenon Technologies is one of the leading suppliers of F&G detectors in different industry segments including Fertilizer, Oil & Gas, Petrochemical & Process industries. DAC team encouraged & supported Xenon not only to win this order but also develop their confidence in further exploring such requirements in different industries along with DAC as a team filling market gaps. DAC team is in discussion with Xenon Technologies on more business opportunities in different market segments and looking forward to a long-term business relationship with a win-win business proposition.

## GE ACKNOWLEDGES DESCON ENGINEERING'S OUTSTANDING HSE PERFORMANCE

Descon Engineering has been acknowledged by GE for "Outstanding HSE Performance" during the GT106 LEC III Upgrade Project at GASCO Habshan. This was a multi-disciplinary project with Civil, Mechanical, Piping, Structure, Electrical and Instrumentation scope, required to be executed all at the same time. The execution of GT-106 Project was a tough and challenging milestone considering that there had been a gap of more than one year during the execution period due to the Covid-19 outbreak in 2020.

The team's dedication, strong coordination and commitment amidst various challenges led the company to the successful and timely execution of the project, without any major HSE incident, COPQs and cost impact.

## DESCON ENGINEERING RECEIVES A RECOGNITION AWARD FOR THE SUCCESSFUL AND SAFE COMPLETION OF ENOC REFINERY 2022 SHUTDOWN

Descon Engineering's management team met with the Emirates National Oil Company (ENOC) to receive a recognition award for successful completion of the latest multiple packages shutdown project at ENOC refinery in Dubai, which marked more than 600,000 manhours executed without LTI.

ENOC lauded the Descon team for the safe and smooth execution of the shutdown work, which was accomplished ahead of schedule while maintaining highest standards of quality, HSE and project management. Descon team further discussed and explained how we can support ENOC in maintaining their plants and assets through Descon wide portfolio of services and offerings in retrofits, asset performance management and plant maintenance.

This recognition award and the recent successful execution of ENOC Shutdown will continue to strengthen the relationship and increase the confidence of this esteemed client in Descon's capabilities, which will keep bringing more collaboration opportunities with the client for a continuous success and future business prosperity.

## VISIT TO HVACR EXHIBITION & CONFERENCE 2022

Participants from Descon Engineering's Construction Division visited the HVACR (Heating, Ventilation, Air Conditioning and Refrigeration) 2022 International Expo & Conference.

Both indigenous and imported items were on display at different stalls providing supply and turnkey solutions. It was interesting to witness the potential in Mechanical, Electrical & Plumbing works within Pakistan.

## UZBEKISTAN ENERGY FORUM UEF 2022

Descon participated in the Uzbekistan Energy Forum UEF 2022, an annual major event in the energy sector of Uzbekistan. UEF 2022 provided useful insights about the country future development plans in the energy fields including Power and Oil and Gas. It hosted many panel discussions to cover various topics related to Uzbekistan vision of the energy sector future, performed by many speakers who represented different key developers, investors, government entities, NOCs, OEMs and Service Providers.

## ASME AND NB CERTIFICATION AWARDED TO RUWAIS AMW (ABU DHABI MANUFACTURING WORKS) FACILITIES

Descon Engineering successfully completed the ASME joint review with ASME team members at the Descon Engineering, Abu Dhabi Manufacturing Works.

The team reviewed the system and implementation of 16 Quality System elements, Design capability of Div.01/02 vessels, Fabrication/Welding Controls of the Demo Vessel at shop in accordance with current revision of applicable codes.

Following the audit, ASME review team recommended issuance of Certification Stamp Markings-U (Pressure Vessel under ASME Sec. VIII Div. 01) , U2 (Pressure Vessel under ASME Sec. VIII Div. 02), S (Power Boilers under ASME Sec. I) & R ( National Board Certificate of Authorization for Repair and Alteration).

ISO 9001:2015

ISO 45001:2018

ISO 14001:2015

## DESCON ENGINEERING (OMAN) ACHIEVES IMS RECERTIFICATION WITHOUT ANY NCR

With the purpose of maintaining and improving its quality, environmental and occupational health & safety management systems, Descon Engineering (Oman) achieves the certification of compliance with the standards QMS ISO 9001:2015, EMS ISO 14001:2015, ISO 45001:2018 by SGS Pakistan without any NCR. The purpose is to accomplish global recognition and enhance its commitment with continuous improvement, as well as offering high quality services to targeted sectors in Oman including Energy, Petrochemicals, Fertilizers, Chemical & Mid to Down stream while aiming high confidence and customer satisfaction.

These IMS certificates has been renewed till Jun 2025.

## FUTURE LEADERS CONNECT WITH DEL CEO & CHAIRMAN

In line with the company's talent engagement & people development strategy, interactive & in-person session of our Future Leaders was planned with the Descon Engineering Chairman & CEO over lunch.

This session was part of many other such interventions where an opportunity was given to all Future Leaders to have direct interaction with the senior leadership to discuss their career highlights and future aspirations.

## PROJECT KURRAMTANGI (KTBP) PROGRESSES AS PER PLAN

KTDP is progressing and shaping up now. The concerted efforts of Team KTDP in high-risk security zone (North Waziristan District) is highly appreciable. The team is performing with best QHSE protocols at the site which has been praised by WAPDA & USAID during their visits.

## CELEBRATING HARDWORK

Descon Engineering (Qatar) recently celebrated successful completion of multiple Shutdowns and honored their employees' long association with the company.

The employees have worked tirelessly, executing parallel back-to-back shutdowns, enabling the company to cement its trust among its esteemed clients. ISD Qatar is proud to have such dedicated team and looks forward to having more such appreciations and long-term associations.

## ACKNOWLEDGING LONG SERVICE (PAKISTAN)

As a gesture of recognition to thank our long serving employees for their commitment and contributions in building Descon Engineering Limited, Corporate HR led the Long Service Award Ceremony on June 21, 2022 for the following categories; 5, 10, 15 and 20 Years of service.

The ceremony was graced by Corporate Heads and CEO, Taimur Saeed. The celebration was opened by a welcome speech highlighting the importance of Long Service Awards for Descon Engineering. This year, 20 Desconians were awarded with Long Service awards along with gold coins and certificates, distributed by Corporate Heads to their respective team members.

Long Service Awards Ceremony takes place each year at DEL to commemorate and jointly recognize our employees

for their many years of services to the company in the thick n  
thin of organisation success. We wish them many more years  
of success with Descon.

## ACNOWLEDGING LONG SERVICE (UAE)

In spirit of recognizing the services of our employees to the company, the UAE team organized Annual Long Service Awards where the contribution of our valuable employees & their long term association were appreciated by the Division President, Head Operations & Head HR. All eligible colleagues who had served their respective tenures, received accolades. Without a shred of doubt, the value addition of each one of them has helped the UAE business unit in its transformation.

## PROMOTING IMPORTANCE OF HSE - 7TH ANNUAL CHILDREN'S HSE POSTER GALA

Descon Engineering (Qatar) organized 7th Annual Children's HSE Poster Gala on 12th May 2022 with the objective of continuously enhancing the employee safety culture. Safety for Descon is not just limited to the workplace but also beyond it, because incidents can happen anywhere and the impact of incidents on personal life is huge. The participants were given a theme "Papa Please Work Safely" and the idea was to draw a live poster reinforcing this message. Children were divided into 3 groups based on age categories and the 3 best posters were chosen via rating by management and the winners were rewarded. Fun events followed after the poster drawing to make the event more interactive and fun.

## HSE CAMPAIGN AND AWARDS CEREMONY AT MOHMAND DAM SITE

HSE Campaign on Hazards & Near Miss Reporting and Incentive Awards ceremony was launched at MDHPP. Project Director, Site Manager along with the other management representatives distributed prizes and certificates amongst the employees.

## HSE STEERING COMMITTEE AUDIT AT ISLAM BARRAGE PROJECT SITE

HSE Steering Committee Audit was conducted at Islam Barrage Project Site (IBP). Senior Management actively participated in the activity and shared findings with the project site team.

## HSE LEADERSHIP WORKSHOP

For every thriving organization, Health & Safety is strongly linked to success, where the role of its Leadership is vital for effective health & safety performance. Bearing this in mind, a structured "HSE Leadership Workshop" was organized by Descon Engineering (UAE), moderated by an experienced and well-renowned facilitator Dr. Shaukat Chandna.

Through this interactive and thought-provoking workshop, the leadership, departmental heads and project teams/leaders collaborated in light of the lessons learned, industry case studies and personal experiences with the objective to draw the future roadmap to establish an everlasting HSE culture in Descon.

## SAFETY HUDDLES

In line with Descon's CoreValue 'Safety', the Construction Division carried out its weekly safety huddle at the DHQ. Besides acquainting employees with life saving golden HSE rules, this mandatory Tool Box Talk (TBT) further strengthened Descon's resolve and commitment towards importance of safety at work.

## DEFENSIVE DRIVING TTT & EVALUATORS AT PROJECT SITES

“Defensive Driving (TTT) & Evaluator” program was conducted by IP Division. The trained participants further provided trainings to all drivers and competent evaluators assessed all drivers on the principles of “Defensive Driving Techniques” including subcontractors at all IP sites.

## BECAUSE SPORTS ARE EQUALLY IMPORTANT FOR BUILDING CHARACTER - SPORTS GALA IN QATAR

An entertaining Sports Gala was organized by the Qatar team from 16th to 18th June 2022, which witnessed fulfilled competitions among employees. Teams from all offices and projects of RLIC Zone, MIC Zone, E&I, and Doha Office took part in the events of Cricket, Volleyball, Badminton, Table Tennis & Tug of War.

The Finals of Cricket match was played between Doha Office & Shell QSGTL teams and Shell QSGTL won the title.

In Table Tennis double final match, Team Rana Usman & Haris Omer Khan defeated team Usman Hamid Mirza & Javed Altaf and won the title.

In Badminton Doubles Final match, Team Waqar Hussain & Kashif Rasheed defeated the Team Sabahat ullah Anjum & Bilal Askari and won the title.

In Volleyball Final match, RLIC Zone team defeated Doha office team and won the title.

In Tug Of War MIC Zone team defeated RLIC team and won the title.

## SPORTS GALA IN UAE

To ensure we have healthy work life balance, Descon (UAE) team organized Sports Gala as we truly believe that having healthy employee engagement activities makes significant contribution to the development of the employees. Industrial Services Division President Mr. Anwar Ul Haq

inaugurated the event. The leadership team not only graced the event but actively participated in different games. Both male and female employees participated enthusiastically in games like badminton, volleyball, cricket, table tennis & tug of war. At the closing ceremony, Winners & Runner ups were awarded give aways & plaques.

## PROMOTING EMPLOYEE ENGAGEMENT - FAMILY IFTAR & GET TOGETHER

At Descon, we stay connected not only on professional fronts but also on personal level. To harness the same energy, the UAE team organized a family get together where employees & their families were invited to develop a rapport with coworkers outside of the office. Fun filled activities for kids were also arranged.

## LEARNING INTERVENTIONS BY MANAGEMENT DEVELOPMENT CENTRE (MDC)

Setting the seal on our value of Continuous Improvement and Teamwork across Descon, MDC conducted a revamped Personal Mastery (MDP I) Program locally and also revived its tradition of Learning Weeks at different regional offices and sites.

### PERSONAL (MASTERY MDP I)

Incumbents of Personal Mastery (MDP I) from DEL, DOL and DPS realized their Strengths & Potential, learned Planning, Time Management and developed Self-awareness. This 2 days' rigorous program involved numerous exercises that were an opportunity to help the learners advance their personal and professional lives.

Day 1 kicked off with a welcome by Mahvash Murad – Head MDC, HSE Orientation by Usman Ahmed – In-charge HSE Auditor, self-awareness by Babur Shabbir – Head HR Corporate and Passion & Energy by Hammad Safdar – Head HR Pakistan.

Day 2 was addressed by Maqsood Ali – President HR where he discussed the importance of Learning for Continuous Improvement and the significance of our most prized assets; People. Afsheen Rasheed – Manager HR Descon Other Companies shed a light on the importance of Communication and Team work, Mahvash Murad enlightened the incumbents on Time Management and giving & receiving effective feedback and Umer Khan – Manager BD prepared the incumbents on Client Management.

## INTERNATIONAL LEARNING WEEKS AT DESCON ENGINEERING

In the 1st Phase of Learning Weeks, MDC covered Abu Dhabi and Qatar Business Units from May 29 till June 09 2022. These 2 weeks comprised of 7 sessions of 4 programs (Personal Mastery (MDP 1), Leading Teams (MDP 2), Goal Setting & Performance Management and Supervisory Skills) training 183 Descon Engineering and 9 Gray Mackenzie Engineering Services Colleagues, facilitated by Mahvash Murad and Maisa Khan from MDC - Corporate HR and Khurshid Alam Khan, Haris Omer Khan and Muhammad Saad Sajjad from the Business Units as SMEs.

Building our Future Leaders, Personal Mastery (MDP 1) comprised of the lessons on Understanding Self and working on the Emotional Intelligence. The program focused on how to be more productive and efficient by using tools such as communication and time management. The participants also learnt about Feedback and Teamwork.

Leading Teams (MDP 2). The program built upon the lessons of Self Mastery (MDP 1), the journey from being aware of self and using the skills to create and lead teams. The program focused on how to be a more effective leader; better listener and to share feedback, without biases; decision making and finding sustainable solutions for various problems; leading and concluding successful negotiations and managing conflicts. The participants also learnt about innovation and leading change.

Goal Setting and Performance Management catered to the upcoming appraisal cycle where designing SMART Goals was discussed along with providing Effective Feedbacks.

Ensuring the development of the foundations of our operations, Supervisory Skills offered a refresher for our supervisors where Descon Values - CLATOS was mapped to their routine tasks.

## FURTHERING OPEN COMMUNICATION - ANNUAL TOWNHALL AT DESCON OXYCHEM

As the budget year neared completion, the management team conducted Annual Townhall in the third week of May 2022 to discuss the progress and achievements of the current year and targets for the coming year.

The management staff participated in the meeting and the HODs briefed about their respective domains performance and plans for the coming year. Towards the end, a Q&A session enabled all participants to ask questions and provide their valuable feedback and suggestions.

The Townhall concluded with distributing certificates to deserving colleagues for their commitment and diligence throughout the current budget year.

## SETTING RECORDS - HIGHEST EVER PRODUCTION

DOL achieved highest ever production in the month of May 2022 by producing 3,671 MT beating the previous best of 3,644 MT in January 2022. This is the highest ever monthly production achieved by DOL since its inception.

Led by the Works Manager, the team celebrated this feat, and were appreciated for their performance, resolve and commitment. The Works Manager expressed his confidence in his teams' abilities and commitment for successfully achieving the targets ahead.

## EID MILAN AT DESCON OXYCHEM

The Management of DOL arranged an Eid Milan Party for its employees post Eid-UI-Fitr holidays in May-2022.

A hi-tea was arranged by the management for the DOL fellows at the plant cafeteria where along with enjoying the snacks, the employees shared their memories and Eid experiences with everyone. CEO, Mr. Mohsin Zia, & CFO, Mr. Rizwan Qaiser, appreciated employees and shared their thoughts and necessity of such gatherings.

## DPS REINFORCES ITS COMMITMENT TO HSE

Descon Power Solutions recognizes the contributions that employees make in fostering a culture of health and safety in the workplace. As part of company's commitment to safety in the workplace, DPS acknowledged and gave Safety Awards upon achieving 10 Million Safe Manhours to all the employees.

## SAFETY WEEK OVERVIEW AT RAHIMYARKHAN MILLS AND GUL AHMED WIND POWER PLANT

DPS-RYK Mills and Gul Ahmed Wind Power Plant celebrated Safety Week with a multitude of activities focusing on workplace safety, health and well-being. The initiative placed focus on building knowledge, capabilities and raising awareness of what matters most: to be able to recognize and eliminate risks before they become accidents and to look out for each other.

Different challenges were planned during the safety week:

- Challenge 1: Personal Protective Equipment (PPEs) Demonstration
- Challenge 2: Fire Evacuation Drills
- Challenge 3: Hazard Hunt
- Challenge 4: Basic of first aid by doctor from nearby Rahma hospital
- Challenge 5: Giveaways on completing the tasks safely

## EMERGENCY AWARENESS SESSION BY RESCUE 1122

Emergency Awareness Session was arranged at DPS-RYK site through Rescue 1122 team. It was conducted to prepare the facility occupants for emergency situations. This training is crucial to ensure that all the employees understand what to do and when to act to avoid further disruption of business operations.

## EID UL FITAR GIFTS DISTRIBUTION AT DPS HEAD OFFICE

As a part of employee engagement, DPS constantly strives to make its employees feel special. It celebrated Eid festivity where sweet favor boxes were dispatched to the entire DPS, RPPL and AEL teams at the Head Office.

## WORLD ENVIRONMENT DAY 2022 CELEBRATION

To commemorate the UN Global campaign for this year 'Only One Earth', DPS, RPPL and GAWPL sites celebrated World Environment day 2022 to highlight its importance and the positive environmental actions taken within the company. This was a perfect occasion to explore the nature in our surroundings. Different activities like cake cutting, quiz competition, speech by heads & QEHS lead on Environment protection, tree plantation and refreshment were organized.

## DESCON SUMMER LEAGUE AT ROUSCH POWER PLANT

DPS strongly promotes the importance of giving employees a chance to re-energize themselves in engaging activities. To focus on employees' development and in order to develop a sense of team cohesion among employees, DPS-Rousch Power Plant organized Descon Summer League (DSL) at site.

## GE GAS POWER MIDDLE EAST – AFRICA – SOUTH ASIA PARTNERS SUMMIT 2022 IN DUBAI

DPS was invited by GE to participate in the GE Gas Power, Middle East – Africa – South Asia, Partners Summit 2022 in May 2022. CEO DPS Mr. Toseef Ijaz Rana and Head of Business Development, Mr. Kazi Fahim Uddin Ahmad participated in the Summit.

GE gave an overview of their business, briefed about region strategy and explained about their expectations from the partner network.

During the one to one sessions, DPS held meetings with the GE Gas Power leadership, business and procurement functions in the regional and global roles.

## PAKISTAN ENERGY REFORM SUMMIT 2022

DPS participated in the Pakistan Energy Reform Summit 2022 held in May 2022. A stall was put up with representation from DEL and DPS. The Summit was well attended by relevant government functionaries, including Minister for Energy, Minister of State for Energy, Chairman NEPRA, MD SNGPL, along with representatives from the private sector energy companies.

Descon was able to educate the participants visiting its stall on its diversified portfolio in the energy segment.
